🪪 Profile

Dedicated and results-driven Flutter developer with over 5 years of experience in building cross-platform mobile applications. Proficient in Dart, Flutter SDK, and Swift with a strong understanding of software development principles. Adept at collaborating with cross-functional teams to deliver high-quality, user-centric applications.

💼 Professional Experience

Care Health Insurance, *Software Engineer* ⧉   07/2024 – present
                                                                    Gurugram, India

- **Projects -** Care Health - Customer App, ⧉ Faveo Plus ⧉ and Instabiz ⧉
- **Lead a team of Flutter developers**, coordinating development tasks, conducting code reviews, and mentoring juniors to ensure high-quality deliverables.
- **Integrated PayU payment gateway**, handling secure transaction flows and managing payment callbacks and failures effectively.
- **Implemented API encryption and decryption**, ensuring secure communication between the client and server using custom algorithms or industry standards.
- Expertise in integrating Flutter with **native iOS** and **native Android** to extend app functionality and provide seamless platform-specific experiences.
- **Cross-platform development** using the Flutter framework to build scalable and high-performance mobile applications for both iOS and Android.
- Strong knowledge of **native iOS (Swift)** and **native Android (Java/Kotlin)** to ensure smooth communication between Flutter and native code for platform-specific features.
- Implemented **dependency injection (DI)**, **Bloc with Clean Architecture**, optimizing code for maintainability and scalability.
- Hands-on experience in **CICD pipelines**, utilizing tools like GitHub and Bitbucket for version control and automated deployment.
- **Responsive and user-friendly interface design** ensuring a smooth user experience across multiple devices.
- Integrated third-party APIs for features such as **geolocation**, **push notifications**, **Agora SDK** for **video calling**, and **WebEngage** for user engagement.
- Implemented **unit and widget tests** to ensure code quality and maintainability, following best practices.
- Collaborated with **backend developers** to define API contracts and seamlessly integrate server-side logic.
- Integrated **WebEngage** for user engagement, push notifications, in-app messaging, and personalized communication features to enhance user retention and interaction.

CRM Masters Infotech LLP, *Flutter Developer* ⧉   05/2023 – 06/2024
                                                                    Gurugram, India

- **Projects -** Survey Lite App, BizWorks-AI Blog Post ⧉ , Johnson's Operations**,** Johnson's Contractor Web App, Johnson's GovReuse
- Developed and maintained cross-platform mobile applications using the Flutter framework.
- Implemented dependency injection (DI), Bloc with Clean Architecture, optimizing code and CICD pipelines, GitHub and Bitbucket are crucial steps in developing robust and efficient software applications.
- Collaborated with UX/UI designers to implement responsive and user-friendly interfaces.
- I have integrated third-party APIs for features like geolocation, push notifications, and chatting Functionality.
- Implement unit and widget tests to ensure code quality and maintainability.
- Collaborate with backend developers to define API contracts and integrate with server-side logic.

Addweb Solutions Pvt Ltd, *Software Engineer*   05/2020 – 05/2023
                                                                    Jaipur, India

- **Projects -** TuCo2 ⧉ , BBZ ⧉

- Participated in an intensive training program covering front-end and back-end development technologies.

- Completed hands-on projects to gain practical experience in building web applications.

- Collaborated with mentors and fellow trainees on group projects and coding challenges.

- Developed and maintained cross-platform mobile applications using the Flutter framework.

Collaborated with UX/UI designers to implement responsive and user-friendly interfaces.

🧠 Skills

Flutter	Dart,swift
Firebase,Firestore,Firebase Authentication	Bloc,Gex
Visual Studio Code, Android Studi, XCode	Github,Bitbucket,CI-CD
Zoho,Jira	MVC,Clean architecture
Flutter Flow	

🎓 Education

MCA, *International School of Informatics & Management Technical Campus*   2023 | Jaipur

BCA, *St. Wilfred's PG College*   2018 | Jaipur

Intermediate, *Vidya Bharti Public School*   2015 | Sikar

Matriculation, *Kendriya Vidyalaya*   2012 | Sikar

🎖 Awards & Certification

Employee Of The Month, *Crm Masters Infotech LLP*

Flutter Certification, *Programming Hub* ↗
